FILACP JOURNAL
IBERIANLATINAMERICAN FEDERATION OF PLASTIC SURGERY
NRO. 62 / FILACP / ABRIL 2015

WORDS FROM THE PRESIDENT.

MD JULIO DANIEL KIRSCHBAUM
President of the FILACP 2014 – 2016

Dear Colleagues and Friends.

After the first 6 months of being in charge, I have had the satisfaction of visiting the Dominican Republic, Ecuador, Brazil, Panama and Guatemala, where I had the opportunity of meeting with the authorities of the corresponding Societies and also to cover topics of mutual interest and favorable to the Specialty.

Next I will be traveling to Europe, representing the FILACP, to participate in the creation of a new World Society of Plastic Surgery, with the proposal of the creation of a transparent, representative and democratic organization.

The Course for the Publication of Scientific Journals, given by MD Vaquero, has been a total success, with several requests from National Societies interested on the same.

We encourage our colleagues to send their works for their publication in our Iberian Latin American Journal of Plastic Surgery. Each Chapter of the Federation will select the best work published in the journal on its corresponding area (years 2014 – 2015), this will be awarded with an honorary diploma and monetary stimulus which will be awarded duraing the closing ceremony in the Biannual Conference of the FILACP to take place in Punta del Este – Uruguay on March 9 to 12, 2016, where everyone is invited.

“... The FILACP will participate in the creation of a new World Society of Plastic Surgery”

ANNOUNCEMENT TO THE MEMBERS OF THE NATIONAL SOCIETIES OF FILACP.

Dear members of the Plastic Surgery Societies and Associations of the Iberian American Federation of Plastic Surgery of the FILACP.

We see the great boom of intrusiveness in our medical specialty the last years with much concern, boosted by an unmeasured desire for obtaining economic resources by the people, which without having qualifications and the training to exercise it and stimulated in situation by commercial businesses looking for a market where to sell their products, adventure themselves into a tricky, anti ethical and prejudicial practice, both for the unwary users that make the mistake of recurring to their services, as for the prestige of our noble specialty of Plastic, Aesthetic and Reconstructive Surgery.

This situation echoes in a very negative way in our professional practice, since ase we know, whenever regretable situations occur due to intrusiveness, which imply complications on health or the decease of those who use their services, a considerable reduction in the consultations and procedures of the Plastic Surgeons is produced, because most of the people sadly do not know how to distinguish between a Plastic Surgeon and an individual who is not one, but that holds a certificate that many times misleads people (Aesthetic Practitioner, Cosmetic Surgeon, beautician, etc.).

These groups of doctors that make themselves called specialists in Aethetics Medicine, search everyday the way to endorse themselves as specialists, have formed associations and organize conferences that evidently are more of the business than the scientific nature, due to that, in many ocassions they invite Plastic Surgeons from out Federation to participate in such events as speakers and later advertise them, highlighting the participation of such Surgeons.

In such sense and honouring what is referred in the sections F, G and L of the Article N° 20, as well as to the Article N° 22 of the valid Code of Ethics, and from which all the Associations have acquired the commitment of its acceptance by being part of the FILACP, we recommend our members to refuse participating as speakers in events organized by these associations. In the same way, not to take conferences regarding Aesthetic Procedures to events from Specialized Societies different to Plastic Surgery (General Surgery, Ginecology, etc.), in the event of doing this, we would be stimulating intrusiveness, wich is detrimental to our profession and to the future of our specialty.

MD Guillermo Echeverría
Director of the Committe of Ethics

MD Aniceto Rodríguez
Sub Director of the Committe of Ethics

MD Julio Daniel Kirschbaum
President of the FILACP

CONTEST OF RESIDENTS OF THE XX CONFERENCE OF THE IBERIAN-LATINAMERICAN FEDERATION OF PLASTIC SURGERY, CANCUN-MEXICO.

On Wednesday, September 24, 2014, the International Contest of Residents took place. Presided by MD Celso Bohorquez Escobar (Colombia): Director of the Teaching Foundation, MD Eric Santa- maría Linares (Mexico): Deputy Director of the Tea- ching Foundation, MD María del Mar Vaquero (Spain): Chairperson for Europe, MD Gustavo Núñez (Peru): Chairperson for South America. The jury was formed by: MD Rómulo Guerrero (Ecuador), MD Gustavo Núñez (Peru), MD Humberto Campos (Brazil). The number of works accepted were 18; however, only a total of 15 works parti- cipated because 3 residents from Venezuela could not assist due to internal pro- blems of their country. The works presented were the following:

1.Prefab flap expanded in rabbits. AUTHOR: Christian Eduardo, Coauthors: Fernando Criado, Damián Pastoni, Ulises Quijano - ARGENTINA.

2.Efectos de la abdomino-plasty on intraabdominal pressure and lung disten-

sibility. AUTHORS: Nicolás Pereira, Carlos Sciaraffia, Stefan Danilla, Francisco Parada, Constanza Asfora, César Moral - CHILE.

3.Standarization of an expe- rimental porcine model for bone maxillary defects. AUTHOR: MD Alejandro Agui- lera - MEXICO.

4.Evolution of the surgical scar in abdominoplasty post-infiltration of plasma rich in platelets. AUTHOR: MD Manuel de Jesús Belén – DOMINICAN REPUBLIC.

5.Iatrogenic allogenosis, findings of a rheumatic illness. AUTHOR: Stanford Nora, Montealegre Giovanni. MD - COLOMBIA.

6.Microsurgery. Validation of a system for training and fo- llow-up after six months. AUTHORS: Juan Pablo Cisternas, Borys Marinkovic, Alex Eulufi, Kenneth Guler, Soledad Fernández, Stefan Danilla, Wilfredo Calderón. MAIN AUTHORS: Juan Pablo Cisternas - CHILE.

7.Optimization of the results from sole reconstruction by means of the use of podobarography and computational simulation. AUTHOR: Elena Irene Jordán - SPAIN.

8.Surgical anatomy of the Sub mental Medial Platysmaplasty. Anatomic variability in corpses. AUTHOR: MD Ximena Andrea García, MD Julio César Gálvez Chávez - CUBA.

9.Technique for the Muscular Transfer of Super loaded Nervous Gracilis for Facial Reanimation. AUTHOR: MD Andrés Bello Margalef -MEXICO.

10.Heel-Dual Innervation: Anastomosis of Richie Cannieu. AUTHOR – Leonardo Rojas, MD (1), Olga Lucía Mardach, MD (2), Luis Eduardo Nieto, MD (3) - COLOMBIA.

11.Presentation of Body-Qol R, A new instrument for the measurement of results. AUTHOR: Stefani Danilla - CHILE.

12.Effect of the cold preservation on the chronic rejection in the model of posterior limb transplant in rats. AUTHOR: Jorge Bonastre – SPAIN.

13.Evaluation of the aesthetic and functional result of the anterolateral flap of the thin and innervated thigh in patients subject to recons- truction of defects on soft tissues on top limb. AUTHOR: MD Carlos Alberto Torres Ortiz - MEXICO.

14.Progress flap and adipose cell rotation for the recons- truction of nail bed. AUTHOR: Alexander Mendoza Medina - COLOMBIA.

15.Experimental study on rats regarding the use of plasma rich in platelets in the treatment of acute injuries of peripheral nerves. Preliminary study. AUTHOR: MD Nathalia Sorrenti, MD Santiago Fossati, MD Daniel Wolff - URUGUAY.

THE WINNING WORKS WERE THE FOLLOWING:

1° Place: Standarization of an experimental porcine model for bone maxillary defects. MD Alejandro Aguilera – MEXICO, with a prize of US$5,000 (five thousand do- llars).

2° Place: Effect of the cold preservation on the chronic rejection in the model of posterior limb transplant in rats. Jorge Bonastre – SPAIN, with a prize of US$3,000 (three thousand dollars tres mil dólares).

3° Place: Experimental study on rats regarding the use of plasma rich in platelets in the treatment of acute injuries of peripheral nerves. MD Nathalia Sorrenti - URUGUAY with a prize of US$1,000 (one thousand dollars).

ACTIVITIES OF THE XIX ECUADORIAN CONFERENCE OF PLASTIC SURGERY

The National Plastic Surgery Conference of Ecuador took place on October 31, November 1 and 2, 2014, in Cuenca. As an honour guest, MD Julio Daniel Kirschbaum President of the FILACP attended and the guest professors were: MD Gary Burget (USA), MD Alexander Seifalian (England), MD Antonio Fuente del Campo (Mexico), Ernesto Theurell (Mexico), Eduardo Góngora (Mexico), Raúl Nahas (Argentina) Joao Prado Neto (Brazil), Alfonso Sempértegui (Brazil), Milton Hayashi (Brazil), Alfonso Riascos (Colombia). The latest topics were presented regarding facial surgery, rhinoplasty, nose reconstruction and the Regenerative Medicine and Nanotechnology conference had special interest, given by Professor Seifalian, world authority on this field. The conference was of excellent scientific level and it had a very interesting social program, this national event was managed and organized by MD Rómulo Guerrero, President of the Ecuadorian Society of Plastic Surgery.
